30 Liberty Street • Edison • NJ 08837

POSITION AVAILABLE: Industrial Pump Mechanic

COMPANY PROFILE:

Metro Pumps and Systems, Inc. is a distribution, engineering and service company whose staff consists of engineers, sales, customer service, project managers, machinists, mechanics and administrative personnel. As a combined group, we offer years of experience in supplying rotating equipment and services. We invest in education, training and technology to ensure our staff is prepared to meet our customers' requirements. Our problem solving experience separates us from the competition.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

The qualified candidate must have minimum (3) years hands-on experience in pump and industrial equipment service and repair. Previous experience to include service and repairs on horizontal split case, vertical, submersible, ANSI, end suction, API and multistage pumps manufactured by Flowserve, Durco, Goulds, Ingersoll Rand, Gorman-Rupp, Aurora, Fairbanks Morse, PACO, Flygt, Sulzer, KSB, Grundfos and the like. Knowledge of removing and installing mechanical seals is required. Use of micrometers, dial indicators and other precision measuring equipment is a must. Working in and outside our service facility is necessary. Overtime will be mandatory as the customer requires. A valid driver's license and proof of insurance is required during employment. Random drug and alcohol screening will be performed. The candidate is required to supply their own tools up to 1 inch. Basic writing and computer skills are a must in order to fill out inspection forms and other documents on Metro's computer system. The use of the internet and e-mail will also be needed to complete daily tasks.

We are looking for a professional seeking continual advancement with a growing company. Other essential traits include strong work ethic, organizational skills, cleanliness and pride in ones work. The qualified candidate will be compensated with a solid competitive employee package.
